Pavco, P., McSwiggen, J., Stinchcomb, D. and Escobedo, J.

Rethod and reagent for the treatment of diseases or conditions
Method and reagent for the treatment of diseases or conditions
related to levels of vascular endothelial growth factor receptor
Patent: US 6346398-A 7818 12-FFB-2002;

Location/Qualifiers
                                                                                                                                                                                                                                                                                                                                                                                       Unknown.
